

MD FLL State Tournament: Jan 26, 2008

Team Info Sheet

Team Name: Tech Brick FLL, Team 10
School: New Covenant Christian Academy
City/State: Abingdon, MD

Team Members

Nate Bero
Jonathan Ciavolino
Cole Dininno
Alie Hruz

Emily Klein
Caitlin McLanahan
KC McLanahan

Andy Rodriguez
Jonathan Shulgach
Zach White

Coaches

Marco Ciavolino, Debbie Dininno, Barb Hruz, Amy Ciavolino, Tracey Klein

1. How did your team work on the technical aspects of the robot?

We divided into four different areas. Three of them worked directly on the robot: Strategy, building, and programming. The strategy team planned the missions. The programming and building teams worked together to execute the missions.

2. How did your team work on the challenge project?

We researched the project and issues, learning about building energy usage. We then identified an older building in our community (1870) and studied the improvements. Then we determined the improved energy usage.

3. Is there a story about your team you'd like to share with the judges?

We were asked to present our work to the local library in Harford County. It's called Project LEAP. It allows children to check out science and technology items from the library. We were presenting robotics. More than 60 children came to see our four teams (JFLL, FLL, and FTC)
